26 June 1993

Dear Curry Family Member,

This note is to inform you that our family genealogy project has been delayed. We have decided to rework the format of the book due to the imbalance of information. The project will now be presented as a genealogical record of the Curry family rather than a professional book.

We will now do the majority (if not all) of the printing and will have it professionally bound. The project will no longer be professionally published.

The project will be presented in a format where information can readily be added and edited by family members.

We hope you will understand that the project is being constructed by family members and will no longer be professionally done - it will be a more relaxed and workable format where the readers can easily obtain facts and get a sense of family relationships. All pictures will still be used within this new format.
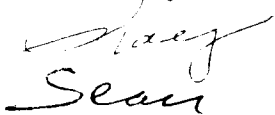

We would like, if we can, to get more information from many family members. Very few members took advantage of supplying us with additional information. This includes detailed educational and occupational backgrounds. Anything you would like to add is welcome : anything from hobbies to accomplishments.

For those who have ordered books, We are at present very uncertain of how price will be affected by this change. It will no doubt be less than the $39.00 last quoted since more of the work will be done by us.

Since you ordered a book under the understanding that it would be professionally published we would appreciate it if you would let us know as soon as possible if you wish to cancel your order. It is necessary for us to give the binding company an approximate number of copies we wish to have bound for us to come to a price agreement with them.

We thank you for your patience and understanding in the delay of the project.

Sincerely,

Raymond Curry
Sean Curry
